LAKE TO GULF CANAL.

Illinois Votes \$20,000,000 to Construct Waterways in That State.

Chicago, Nov. 7 .- That Illinois will perform her part in the construction of a lake shed to the gulf waterway, as indicated by belated returns on the propoition submitted to the people at Tues and heavy majorities were rolled up in month a year ago.

and heavy majorities were rolled up in its favor in the river counties. Robert Isahm Randolph, secretary of the Internal Improvement Commission of Illinois, said yesterday: "We have positive assurance from Washington that if this Illinois waterway is constructed the federal government will see that the remainder of the work outside of Illinois is done."

The renders of this paper will be pleased to learn that there is at least one dreaded die ase that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh ture is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh bure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer the Hundred Poliars for any case that it fails to cure. Send for list of testimonials. Address F. J. of Pape's Diapepsin.

Every possible kind of stomach trouble is readily cured by Diapepsin, which takes right hold of the food in your stomach and digests it alone, without the help of the stomach, just as if your stomach wasn't there.

After a few days' use of Diapepsin your stomach will again be in good working order, your meals will thoroughly digest and your intestines will be clean and fresh, and you will have no use for laxatives or liver regula-

Inspected Cases of Animal Poisoning.

The chemists of the state laboratory f hygiene, Burlington, are busy investigating suspected cases of animal pois oning, which have been brought to their attention. In one case a horse and in another case several cows belonging to residents in the southern part of the state are thought to have been poisoned by vindictive neighbors. Parts of dogs are also being analyzed for suspected

The laboratory has been actively employed the past we months analyzing water samples to see if certain new sources of supply are contaminated. Samples of liquor recently put through the mill by the chemists for local license commissioners have varied considerably from the standard, and the commission ers are considering the matter of prose cuting the offenders.

Work of Burlington Humane Agent.

The report of John Fuller of Burling on, humane agent, for the month of October, shows ten horses humanely destroyed, some of them with the consent of the owners, and seven removed from work in order to recruit. Two others are to be disposed of before winter sets in. Ten dogs have been put out of the way, one of them a vicious animal which had bitten a child. Of cats, forty-eight were killed, twenty-two of which were infested with mange. The agent has visited South Burlington three times, Essex Junction three times, Colchester and Winooski twice, and Malletts Bay twice. The prospect now is that there will be much suffering among livestock by next March. The prudent farmer will not undertake to winter more animals than he has or can buy food for.
